DALAND MEMORIAL LIBRARY

The functioning of the Library in 1954 has no spectacular events to record, but with the aid and generosity of a few public spirited friends, it has continued to be a vital influence in the educational and cultural interests of the community, and the circulation and number of books added is about the same as in other years.

It has been our earnest endeavor to encourage reading among our school children, and with the co-operation of their teacher, several new books have been purchased for their use, though it is with regret that lack of funds has limited this service.

Gifts of money have been received from the King's Daughters, Mrs. von Weber, Miss Bessie J. Daniel, and Mrs. Arthur Goodwin gave \$25.00 to purchase books in memory of her mother, Mrs. Arthur Temple, who was a great reader and constantly patronized the Library.

Books have been donated by Lawrence Cutler, Joyce Cutler, Mrs. R. H. Thayer, Mrs. Gramstorff, Mrs. Orie M. Bailey, Mrs. Rene Feys, Mrs. Alice C. Wilson, Miss Edna Spinney, Mrs. Paul Barker, Miss Bessie J. Daniel and the Home Circle.

The National Geographic, contributed by Mrs. Bailey and the Milford Cabinet, donated by the Publishers, are an important addition to our periodicals.

A good deal of interest in the Congregational reading list has been shown by members of the Home Circle, and as many books from that list have been purchased as funds were available.

The Bookmobile adds to our current literature in its periodic visits, and the State Library willingly loans books which help make up for the inevitable inadequacy of a small library with insufficient funds.

Discarded books and magazines have been delivered to the Milford Home for the Aged, and the Concord State Prison, as well as to families in town.

Mrs. Alice C. Wilson has loaned the Library eleven large scrap books filled with material about Mont Vernon, which are of immense historic value for reference, and will be increasingly so, through the years.

Again we deplore that service and hours of opening the Library must be limited, but are grateful to all who have made it possible to accomplish what has been done.

Respectfully submitted,
 RUTH S. ENDREJAT,
 Librarian.

AUDITORS' CERTIFICATE

REPORT OF TOWN HISTORY COMMITTEE

The Mont Vernon Historical Committee has been busy compiling material for the History of Mont Vernon.

The following chapters were suggested: Church, Schools, both public and private; Societies; Library; Industries; transportation; Fire Department; Hotels and Summer Boarders; Post Office and R.F.D.; Stores; Town Government; Doctors and Professors; World War I; World War II; 150th Anniversary and Notable Events. The genealogy would be included.

Mrs. Alice Campbell Wilson and Miss Mary Ellen Smith have compiled material on "Houses of Mont Vernon."

Compiling a History similar to our former one is expensive and the approximate price for 300 copies of 300 pages is \$9.00; for 400 copies of 300 pages is \$7.50 each. For a 200-page History of 300 copies is \$6.75 and for 400 copies is \$5.75 each. The binding on the above is \$2.00 a copy.

For a brief Historical sketch with a paper cover of 100 pages is approximate \$3.00 each for 200 copies; and for 300 copies is \$2.50. These would not have any genealogy data.

REPORT OF THE COMMITTEE FOR INVESTIGATING REPAIRS TO THE TOWN HALL

The town hall is still a solid structure with firm foundations and a solid frame. The exterior of the building is in good condition.

The interior of the building is in poor condition as regard to lighting, walls, toilets, kitchen conveniences, and heating.

Estimates have been secured from competent people in regard to the needed improvements and approximate costs.

Three policies are possible in regard to the building.

First: Let present conditions continue with patching up of any actual breakdowns.

Second: Patch the loose plaster, paint the interior of the building, re-wire the dining room, put in a new and larger service entrance for electricity, and replace the front doors at a cost of approximately \$3000.

Third: Modernize the building, do the work suggested in plan 2, plus a new forced warm air heating plant, a new furnace room, a new water supply, flush toilets and lavatories, an enlarged kitchen with new sink, stove, cupboards and other conveniences; the upper hall to have new walls and ceiling of substantial nature rather than plaster. The total cost would be in the neighborhood of \$15,000.00.

The members of the Committee greatly appreciate the helpful advice of our Selectmen, the several tradesmen, and many interested townsmen.

Respectfully submitted,

LEONARD S. MORRISON,
FLORENCE L. STRONCER,
VERNON B. WILKINS,
SAMUEL J. KARNIS,

Committee.

Motion made by Robert Thayer, seconded by William Adams, that the matter of lighting town clock together with exact facts and figures be referred to a committee of three (3) appointed by the Moderator; this committee to make a report at next Town Meeting. Moderator undecided by oral vote. Motion made by

Article 8. Motion by Robert Thayer, seconded by Ruth Thayer, that Article 8 be dismissed. Motion lost.

Article 9. Motion made by Robert Thayer, seconded by several, that Article 9 be dismissed. Motion carried.

Article 10. Bernard Sliney recommended a fenced-in school yard to minimize the danger of the school children running into the street. He appealed to the Selectmen and School Board to take some action concerning safety of children.

Moderator asked for the report of the committee appointed last year to study conditions at the Town Dump. The following report was made by Vernon Wilkins:

In studying conditions at the Town Dump, we found it in an unsightly and unsanitary condition at most times.

The present dump is within sight of two roads, with a 400 ft. frontage on one. There is a great deal of loose paper free to blow with the wind. Brush has been dumped by the truckload leaving little room for anything else. Garbage, parts of animals, and even refuse cleaned from septic tanks, have been left uncovered at the dump creating a health and odor problem.

Possible solutions to these undesirable conditions are numerous. Any rule or regulation presents the problem of enforcement. After much thought and discussion we recommend the following:

1. Present dump be fenced to leave not over 100 ft. frontage or — Dump be moved to a new location on

the same lot where there is a much higher bank from which to dump. This location is further out on, and 50 feet from the Weston Hill Road. A road be built to this new location and laid out so enough trees may be left or planted to keep the new dump practically out of sight from any present road.

2. The top of the dump be graveled at least annually to provide a clean surface as the dump grows.

3. The following matter shall not be put in the dump:

A. Any part or remains of any creature.

B. Refuse from any creature.

C. Brush in large quantities.

D. Any loose paper.

4. The Town consider having a small portion of the dump for the dumping of garbage only. This part may then be treated or covered as necessary.

5. The Selectmen be in charge of the dump, and draw up regulations regarding same. These regulations to be based in part upon this report and any discussion following. The Selectmen present their regulations for approval at the next regular Town Meeting.

VERNON WILKINS,

FRANK C. BLANCHARD,

HAROLD L. STRONCER,

Dump Committee.

After discussion no action was taken.

Motion made by Walter Solovei, seconded by George Kittredge, that future Town Warrants include as Article 3: "To act upon reports of all Town Officers, Agents, Auditors, Committees, etc., and raise and appropriate any money relative thereto." Motion carried.

Motion made by Francis Braun, seconded by Paul Barker, that the Selectmen be instructed to appoint a committee to draw up a plan to zone the village area of the town and that plan be in next town warrant. Motion lost.

Motion by Robert Thayer, seconded by several, that the Selectmen request the State Highway Department to install approved speed signs and enforce the speed law in the thickly settled part of the town. Motion carried.

Motion by George Byam, seconded by Walter Solovei, that a committee of five (5) be appointed to bring in an estimate on permanent repairs to the Town Hall and insert this estimate as an Article in next Town Warrant. Motion carried.

12:33 Article 10 closed. Voting on Article 1 continued.

REPORT OF THE AMERICAN RED CROSS

The Souhegan Valley Chapter, American Red Cross, is made up of Branches in the neighboring towns of Milford, Amherst, New Ipswich, Mason, Temple, Brookline, and Greenville, as well as Mont Vernon. The Chairman of the Chapter during 1954 has been Mr. Alexander Taft of the Greenville Branch.

The Mont Vernon Branch was assigned a quota in the annual 1954 drive of \$160.00. The Chairman of our Fund Campaign, Mrs. Jean Morrison, did an outstanding job of organizing the canvassers and of contacting the Townspeople for memberships and reported a final "over-the-top" amount collected, being one of three of the Branches to make their quota.

Funds have been expended over the past year for a folding wheel-chair, a pair of crutches, a stretcher, and an adequate supply of First Aid materials. Generous townspeople have donated cloths for bandages and slings. All of these supplies, when not being used for emergencies or Red Cross use, are kept in the Mont Vernon Volunteer Fire Department rooms. Should immediate need be required, these Red Cross supplies are readily available to all. A Home Nursing course was sponsored and ten Mont Vernon women received training and supervision in this subject. The course gave much valuable information and training in the care and aid to the sick and injured. During the past year twenty-one Mont Vernon people gave thirty-five pints of blood to the Blood Bank program. This program guarantees that every person in New Hampshire can obtain all blood absolutely free with only the charge for its administration being made. The Blood program has been tremendously important in the saving of lives by having sufficient blood available at all times when it was needed. GIVE this year — remember that "the life you save may be your own." Call Mr. Robert Morrison, 423-R, NOW and make your appointment for the Blood Bank.

All Mont Vernon people are cordially invited to attend any and all Red Cross meetings. See the Milford Cabinet for announcements. Please contact any of the following Mont Vernon Branch Officers if there is opportunity for your Red Cross to be of service to you or your neighbor:

Mr. Robert Morrison, First Aid and Blood Bank Ch.

Mrs. Jean Morrison, Fund Chairman

Mrs. Betty Bardwell, Home Nursing Chairman

Mrs. Elma Kittredge, Home Service Chairman

Mrs. Mary Reagan, Advisory Board

Mrs. Betty Bennett, Treasurer

Mrs. Sylvia Slater, Secretary

Thank you for your support this last year. Your officers and directors are ready to have the Red Cross be of service to you, if and when it becomes necessary. May I ask for your continued consideration and assistance in our work in the coming year.

ADMINISTRATION

Superintendent

I herewith present my sixteenth annual report. Statistics printed on succeeding pages also comprise this report.

Instruction

There are no changes in the teaching staff to report. You are fortunate enough to retain the services of two very conscientious and interested teachers, i.e. Mrs. Scully and Mrs. Clark.

I wish to speak a word for the Testing Program and Workshop which the teachers of this Union attended last year. The results were gratifying to this extent that the median of every grade in this Union exceeded the national median except for Grades 8 and 12 and they were exactly at that median. Last year's testing was in the important field of Reading, as to Vocabulary and Comprehension. Now we turn to a testing program this year in Arithmetic.

Costs

The figures of state average costs for tuition purposes are not available at this writing. However, they are freely predicted to be in the vicinity of \$200 for elementary and \$300 for each secondary pupil. Your tuition costs exclusive of transportation remain at \$150 and \$250 respectfully per pupil.

Deeds

I commend to your attention the work of a union-wide Committee to revise the various report cards. In all probability, trial runs of their results will be made and your comments sought. This is the first major change for a number of years and parents and teachers are joining hands to produce what will be understood and to convey what parents and teachers alike need to know about the school work of their children.

Yet to Do

Each year I recall to you that the floors have never been re-finished since the building was renovated. I hope you will not neglect them. In my opinion they should be sanded, made lighter and then re-finished in keeping with modern practice. Light reflection would be greater and general appearance of the rooms toned up.

Closing

This is the type of education we strive to obtain. "A good school helps youth to acquire the basic tools of learning, to select activities which best prepare them for life, to prepare for, get and hold a job, to maintain mental health and physical fitness, to be a good consumer, to do what is right, to be a good citizen, to be a good family member, to use time wisely." These are some of the goals or outcomes. You may have others. But these aims are not alone for the school — they apply in the home and in other community agencies — wherever the pupil is found. I bespeak the cooperation of all agencies toward the solution of the problems of youth adjustment to our complex society.

My year has been a busy but pleasant one for which I am duly grateful to my associate, Miss Connolly, a diligent teaching staff, a helpful Board and an interested citizenry.

Very respectfully,
HAROLD C. BOWLEY,
Superintendent of Schools.

February 5, 1955.

OUR HELPING TEACHER

In the first report of my work in Union No. 40 I attempted to give a description of the Helping Teacher Program then in the process of evolution. At this time I should like to point out a few phases that have been given particular emphasis during the past year and account for their development.

Grouping Within the Classroom

Since there may be found in any classroom such a wide range of abilities and degrees of achievement among the children it is necessary to fit the school program to the needs of the children rather than try to do the impossible — fit the children to the program. To do this effectively, pupils within the classroom are grouped according to their level of achievement, whether above or below grade level, and are thus encouraged to progress at their own rate. Books of different reading levels and other materials must be supplied, and sometimes help given the teacher in determining which group is best for the child.

Guidance

The programs already underway in some schools have been further developed and expanded. In all schools the teachers are aware of the need for pupil guidance and many have made use of the several available facilities whose purpose is to help children with problems or to avoid becoming problems. The most effective guidance is being achieved through teacher-pupil contact, the teacher recognizing the needs of the child and understanding how he may best be helped.

Social Studies

In no other subject field are there such great possibilities for the development of character and citizenship. It is also in this field that most guidance may take place. Teachers are becoming increasingly aware of the many opportunities for growth that form the basis

of the unit approach to social studies and encourage pupil planning and problem solving. The social studies program throughout the union is also becoming unified so that the subject content will be similar and follow a definite sequence. Parents who have visited school and seen the activities which culminate a unit of work are enthusiastic about this newer method of teaching and like the role it is playing in the development of their children.

Reading Readiness

Until the first grade teacher knows each pupil's readiness for reading she cannot successfully launch a good reading program. It often takes two or more months to be certain of the degree of readiness of every pupil. To avoid the loss of this valuable time, reading readiness tests were given to some of the first graders at the very beginning of the school year, or to most of them before school started. The children were then grouped according to their readiness as shown by the test results. Each teacher knew in September what she might expect of nearly every pupil and what were his needs in the five major areas tested: visual, auditory, muscular coordination, articulation, and language. Since this is the first time such tests have been given so early and on a unionwide basis I have followed the organization of the first grades very closely in order to determine whether such a program has merits enough to warrant its repetition. On the whole it has proven quite successful. Its main disadvantage was that a few children did not do as well as they could when tested so early and later had to be regrouped. However, this was more than offset by the following advantages: 1, It allowed those who were ready to read to start immediately, saving approximately two months. 2, It showed just how much preparation was necessary for the other children, and in what areas. 3, It gave not only the teacher but the parents a better understanding of the

child's development. In most cases the parent was with the child while he was being tested, had a chance to see the test results, and to understand exactly what to expect of him. This has meant a welcome relief from the usual pressure placed upon the child who was not ready, but who might without this pressure catch up with the child who scored much higher. 4, We have happy children working up to capacity and interested in what they are doing. This is the most important advantage of all.

No description of the above program would be complete without mentioning the splendid cooperation encountered on the part of all concerned — parents, teachers, principals, members of the school boards, and Mr. Bowley. For their continued confidence and support, I am extremely grateful.

Respectfully,
MABEL I. CONNOLLY,
Helping Teacher.
